

ABSTRACT

Information Technology Department — AADHAAR Enabled Common Residents Database — Creation of State Resident Data Hub (SRDH) — Administrative approval — Orders — Issued.

Information Technology (e.Gov.I) Department

G.O.Ms. No.21

Dated: 29.11.2013

விஜய், கார்த்திகை-13

திருவள்ளூர் ஆண்டு-2044

Read:

From the CEO, TNeGA, Chennai, Letter No.2072/TNeGA/2013,
dated 22.04.2013.

ORDER:

During the Governor's Address 2013 and Budget Speech, 2013-14, it has been announced that the State will create the State Residents Data Hub (SRDH) as a unified data repository with biometry enabled citizens' data derived from the National Population Registry to service all departments. Accordingly a proposal has been sent by the Chief Executive Officer, Tamil Nadu e-Governance Agency (TNeGA) to implement the announcement. The salient features of the project are detailed at Annexure 'A' to this G.O and briefly described below.

2. AIM

State Resident Data Hub (SRDH) is a unified AADHAAR enabled Data base of all citizens. This repository will be accessed by and be available to all departments which deliver services to citizens. It will help the Government in better targeting, effective service delivery, greater accountability and more efficient monitoring of schemes. It is also proposed to use it to put in place a biometric or 'AADHAAR' based payment system to disburse welfare benefits to citizens.

The SRDH aims to enable the State to:

- Manage complete State Level Resident Data in a digitized, centralized and secured manner.
- Utilise AADHAAR number to uniquely identify citizens (the beneficiaries of different schemes implemented by Government).
- Integrate AADHAAR enabled National Population Register (NPR), data with Departmental utility Databases on a real time basis.
- Incorporate AADHAAR authentication into various applications.

3. AADHAAR SEEDING

Seeding is the process of linking (inserting) AADHAAR number in a program/scheme/department database. It is critical that department/scheme databases are seeded with AADHAAR numbers in order to identify individual beneficiaries which in turn enables readiness for AADHAAR enabled service delivery, which includes both AADHAAR Enabled Payment Services (AEPS) as well as AADHAAR based authentication. As a part of this activity, the individual departments will have to contact the vendors for seeding AADHAAR numbers into their databases at the rates prescribed in the SRDH Implementation contract.

4. SRDH ARCHITECTURE

The software components and framework of SRDH from Unique Identification Authority of India (UIDAI) may be used by the State which has seeding utilities, authentication modules etc. However, it is required to customize the solution/rewrite the software elements as per the State's requirement and it may lead to creation of interfaces and modules in addition to the components available in SRDH framework.

5. IMPLEMENTATION APPROACH

Tamil Nadu e-Governance Agency (TNeGA) through Electronic Corporation of Tamil Nadu Limited (ELCOT) under the Information Technology Department of Government of Tamil Nadu will be the nodal agency for implementation and maintenance of SRDH. It is the responsibility of the individual departments for seeding AADHAAR from SRDH and using it in their applications.

Detailed guidelines for the implementation of the project in a phased manner are included as Annexure 'B' to this G.O.

6. SELECTION OF AGENCY

To facilitate the setting up of SRDH by State Governments, UIDAI has empanelled vendors for SRDH implementation. The State Government is required to invite an Expression of Interest (EOI) from the empanelled vendors for SRDH Implementation and Request for Proposal from the respondents or call for proposal through an open tender. There will be a Selection Committee consisting of representation from Government departments as below to evaluate the proposal and select the vendor.

- I. Secretary to Government, Information Technology Department - Member
- II. Managing Director, ELCOT/Chief Executive Officer, TNeGA - Convenor
- III. State Informatics Officer, National Informatics Centre (NIC), Chennai - Member
- IV. Secretary to Government (Expenditure), Finance Department - Member

The Technical and financial proposals that will be invited from vendors for implementing SRDH will include the following components:

- a) Software Development
- b) Information Technology Infrastructure establishment (Hardware, networking and other equipment)
- c) Data services (Seeding activities which may include Data Extraction, Cleansing and Transformation) (The rates would be charged on per-record basis)
- d) Programme management
- e) Operation and Maintenance services for Hardware and Software.

7. IMPLEMENTATION PERIOD

Initially the NPR's dynamic data will be created in the SRDH in whichever District the National Population Register (NPR) coverage is 70-80%. Over a period of 1-2 years, the resident data creation in SRDH is expected to reach 95-100% level through the NPR's Taluk level facilitation counters.

The implementation agency will be required to implement the Project within a period of 5 years (including Operation and Maintenance) from date of issue of order, which may be extended for a period of two years at mutual consent at the mutually agreed rate.

8. GOVERNANCE STRUCTURE

The Governance structure comprises State Apex Committee, Project Implementation Monitoring Committee and Project Management Unit. Their Roles and Responsibility are described below:-

- i. State Apex Committee is headed by Chief Secretary, Principal Secretaries/Secretaries of concerned Departments.
- ii. The Project Implementation Monitoring Committee will be chaired by the Secretary to Government, Information Technology Department/ Chief Executive Officer, TNeGA.
- iii. TNeGA/State e-Mission Team (SeMT) will be the Project Management Unit (PMU) for implementing and monitoring the SRDH.
- iv. NIC will be the technical advisor for providing e-Government / e-Governance Solutions adopting best practices, integrated services and global solutions in Government Sector.
- v. ELCOT will provide infrastructure support for deployment of applications in the State Data Centre.
- vi. Department nodal officers of the respective departments are responsible for verifying the correctness of the citizen data of the department and linking it to the corresponding AADHAAR number using appropriate tools/methodologies/ processes.

9. ESTIMATE COST SUMMARY AND SOURCE OF FUND

For Application Development and Operation & Maintenance (O&M)
(without Disaster Recovery)

(a) Application Development	- Rs.10.62
(b) Operations and Maintenance	- Rs. 9.28

Rs.19.90

For Disaster Recovery

(with Operation & Maintenance) Rs. 6.03

TOTAL Rs.25.93 Crores

(Rupees Twenty Five Crores and Ninety Three Lakhs only)

Software development for the SRDH will be carried out utilising the funds to be provided by the UIDAI, to the tune of Rs. 10 Crores and the remaining amount shall be met through funding from the State Government.

10. STAKEHOLDERS AND THEIR RESPONSIBILITIES

The following departments are the stakeholders in the SRDH project:

1. Registrar General & Census Commissioner of India
2. Government of Tamil Nadu / Information Technology Department
3. Tamil Nadu e-Governance Agency (TNeGA)
4. Electronic Corporation of Tamil Nadu (ELCOT)
5. National Informatics Centre (NIC).

The responsibilities of the above stake holders are detailed at Annexure 'C' to this G.O.

11. GUIDELINES AND STANDARD PROCEDURE FOR SRDH DATA ACCESS BY SUB-AUTHENTICATION USER AGENCY

A set of Guidelines and Standard Procedure for SRDH Data Access by Sub-Authentication User Agency are detailed at Annexure 'D' to this G.O. This will serve to guide the user Departments / Government agencies who are willing to use the SRDH data for AADHAAR seeding and authentication of the beneficiaries/ citizens/ users.

12. The Government have carefully examined the proposal of the Chief Executive Officer, Tamil Nadu e-Governance Agency, and have decided to accord approval for the following:

- a) Nomination of Tamil Nadu e-Governance Agency (TNeGA) as the Nodal Agency for the project and implementation through Electronic Corporation of Tamil Nadu Limited (ELCOT).
- b) Use of National Population Register (NPR) Data of residents with AADHAAR number as a core database by State Government for State Resident Data Hub (SRDH).
- c) Signing of Memorandum of Understanding (MoU) by State Government with Unique Identification Authority of India (UIDAI) for Authentication Services.
- d) Signing of Memorandum of Understanding (MoU) by State Government with Registrar General & Census Commissioner of India (RGI), Government of India (GOI), for sharing the National Population Register (NPR) Data.
- e) Appointment of Consultant from among the empanelled consultants of Unique Identification Authority of India (UIDAI) by following due procedures for providing Transaction Advisory Services and Project Management Services to select the system integrator / implementor for establishing State Resident Data Hub (SRDH).

- f) Engaging an agency as System Integrator for establishing and maintaining the State Resident Data Hub (SRDH) for five years through open tender process.
- g) Administrative approval for the project at an estimated cost of Rs.25.93 Crores (Rupees twenty five crores and ninety three lakhs only) subject to the UIDAI grant of Rs.10 (Ten) Crores as detailed in para 9 above.

13. The Chief Executive Officer, Tamil Nadu e-Governance Agency is directed to send a proposal to seek funds of Rs.10 (Ten) Crores to Unique Identification Authority of India (UIDAI). He is also directed to send necessary proposals to Government for according financial sanction for the scheme.

14. This order issues with the concurrence of Finance (Industries) Department vide its U.O. - No.69379/Secretary(Expenditure)/2013, dated 27.11.2013.

(BY ORDER OF THE GOVERNOR)

T.K.RAMACHANDRAN,
SECRETARY TO GOVERNMENT

To

Annexure A

(Annexure to G.O.Ms.No.21, Information Technology Department, dated 29.11.2013)

INTRODUCTION

SRDH is an application framework, which would enable the State to create a resident database with Know Your Resident (KYR) fields which include AADHAAR number, name, address, gender, date of birth, etc. Apart from storing KYR data of the citizens, the KYR + data collected as part of census 2011 activity will also be available in SRDH. The SRDH database could be used by the Government Departments /Agencies/ undertakings for seeding of AADHAAR numbers, cleansing, de-duplication and organizing data in their databases efficiently.

The deployment of the SRDH application framework in the State Data Centre would create an authentication infrastructure using State AADHAAR data.

SCOPE

The SRDH scope includes:

- Creation of SRDH from the dynamic NPR data with real time connectivity.
- Integrating Below Poverty Line (BPL) information from Socio-economic census.
- Creation of family data for Civil Supplies Department with AADHAAR numbers.
- Enabling seeding of AADHAAR numbers in various Government scheme data bases like Social Security (Old Age Pension), Health Insurance, Labour Welfare Board and Scholarship at specific rates per data record provided by the selected vendors
- ETL (Extraction, Transformation, Loading) activities of data from various data sources for data cleansing and creation of SRDH
- Development of customizable software modules for the different users, based on their roles and responsibilities
- A tool for data seeding into Departmental databases of SRDH implementation with a provision to add supplementary seeding through online data input form

Information Technology (e.Gov.I) Department

Annexure-B

(Annexure to G.O.Ms.No.21, Information Technology Department, dated 29.11.2013)

IMPLEMENTATION OF SRDH

It is proposed to implement the project in a phased manner as follows:

Pilot:

SRDH will be created for the entire state with NPR database. In Pudukkottai District, the AADHAAR enablement of OAP and PDS services will be taken up. The AADHAAR seeding into PDS database may not be required as the NPR data can be used to create the family card database.

Rollout

After successful implementation in Pudukkottai, it will be rolled out throughout the State in a specified time frame depending on the coverage of biometry data capturing under NPR.

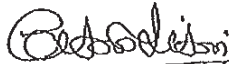

The remaining services as identified by the following Departments shall be rolled out by individual Departments.

- I. Department of Rural Development - MNREGA, IAY/CM's Green House Scheme.
- II. Department of Health and Family Welfare- Comprehensive Public Health Insurance Scheme.
- III. Department of Labour and Employment and other Departments - Schemes for unorganized Labour Welfare Boards.
- IV. Departments of Adi-Dravidar and Tribal Welfare-- Scholarship Scheme.
- V. Departments of BC, MBC and Minorities Welfare - Scholarship Scheme.
- VI. Department of Social Welfare - Welfare schemes like maternity benefit, Marriage Assistance.
- VII. Departments of Land Administration- Integrating the function of land administration.
- VIII. Departments of property Registration-Integrating the functions of registration.
- IX. School Education Department - Common Database/Smart Card/Laptop schemes.

- Application Programming Interface(API)/Web Services or generic connectors to interface with the Department applications
- Managing State Resident Data in a digitized, centralized and secured manner in SRDH
- Using the common e-Governance infrastructure like SDC, State Portal and TNSWAN to deliver the AADHAAR enabled services to citizen
- Database and application should be capable of handling huge user base and transactions
- SRDH should be capable of handling at least 10% of total authentication requirements in a concurrent manner from active users
- The demographic authentication shall be done through SRDH and biometric authentication from UIDAI
- SRDH shall be secure and safe in terms of accessibility and data storage and retrieval
- The entire system shall adhere to the software development and implementation guidelines prescribed by Government of India and Government of Tamil Nadu
- Alternate disaster recovery options to be made available during implementation of SRDH without any data loss, till DRC (Disaster Recovery Centre) is established in the State.
- SRDH will be a single source of authentication of data for the State which shall be accessible to individual Departments and their application for verification and validation of citizen/ beneficiary
- Development of common modules like AADHAAR seeding, authentication and integration etc., for Departments to authenticate the beneficiaries of different schemes.

T.K.RAMACHANDRAN,
SECRETARY TO GOVERNMENT

Section Officer, 29/6/12
4/8/12

Information Technology (e.Gov.I) Department

Annexure-C

(Annexure to G.O.Ms.No.21, Information Technology Department, dated 29.11.2013)

STAKEHOLDERS AND THEIR RESPONSIBILITIES

Registrar General & Census Commissioner of India

- Provide NPR data to State for SRDH creation
- Establishing permanent mechanism to interface between NPR database and SRDH
- Signing of MoU between RGI and Government of Tamil Nadu for data sharing
- Establishing Permanent Facilitation counters at Taluks to ensure 100% data collection, updation, mutation and new enrollments.
- Ensure NPR data is the sole source of core data for SRDH database.

Government of Tamil Nadu

- Signing of MoU between RGI and Government of Tamil Nadu for data sharing
- Signing of MoU between UIDAI and Government of Tamil Nadu for data sharing data biometric authentication
- Establishing permanent mechanism to interface from NPR database to SRDH
- Provide financial support to the nodal agency/Department for SRDH implementation
- Issue G.O for SRDH implementation and procedures and guidelines

Information Technology Department

- Overall responsibility for SRDH implementation
- Facilitate the State Government in SRDH Implementation
- Support the Nodal Agency (TNeGA) in policy level decisions and interfacing other Departments

Tamil Nadu e-Governance Agency (TNeGA)

- Nodal Agency for SRDH Implementation
- Single Point of Contact to all other stakeholders with respect to SRDH implementation in Tamil Nadu.

Based on the requirement, individual Departments shall work-out a plan for funding from the State Government/Government of India for implementing the AADIJAAR enabled service delivery as per the SRDH framework. Other Departments with citizens/beneficiary data bases can also use the SRDH data base.

Annexure-D

(Annexure to G.O.Ms.No.21, Information Technology Department, dated 29.11.2013)

Guidelines and Standard Procedures for SRDH Data Access by Sub-Authentication User Agency (Sub-AUA)

Introduction

State Resident Data Hub (SRDH) is an application framework, which would enable the State to create a resident database with Know Your Resident (KYR) fields which include AADHAAR number, name, address, gender, date of birth, etc. Apart from storing KYR data of the citizens, the KYR+ data collected as part of census 2011 activity will also be available in SRDH. The SRDH database could be used by the Government Departments/Agencies/undertakings for seeding of AADHAAR numbers, cleansing, de-duplication and organizing data in their databases efficiently.

The SRDH aims to enable the State to:

- Manage complete State Level Resident Data in a digitized, centralized and secure manner.
- Utilise AADHAAR number to uniquely identify the beneficiaries for different schemes implemented by Government.
- Integrate AADHAAR enabled NPR data with Department utility Databases on real time.
- Incorporate AADHAAR authentication into various application.

Purpose of the document

This document will serve to guide the user Departments/Government agencies who are willing to use the SRDH data for AADHAAR seeding and authentication of the beneficiaries/citizens/users.

Data Access to the SRDH will be provided to specific Sub-AUAs through a secure authentication infrastructure and appropriate encryption methods only.

Definitions

AUA: The Authentication User Agency is appointed by the State Government to implement and manage the State Resident Data Hub (SRDH). Presently, the AUA for SRDH in Tamil Nadu is

- Programme management
- Co-ordinate with all the agencies to understand the requirements of SRDH.
- Consultancy support in developing application software for Government Departments.
- Establish a Project Management Unit (PMU) to manage the entire program.
- Study the data formats of NPR, AADHAAR and SRDH and help the individual department for mapping their primary data with AADHAAR.
- Consultancy Support for the Departments in AADHAAR seeding into their database.
- Facilitate Departments for establishing interface with SRDH for verification and validation of the beneficiaries.
- Support State, RGI, and UIDAI to establish data sharing agreements.
- Facilitate the State on selecting Software, Hardware and network service providers for SRDH implementation/ application modules implementation.
- Co-ordination with other stakeholders based on their roles and responsibilities.

Electronic Corporation of Tamil Nadu (ELCOT)

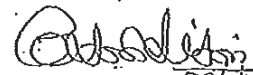

- SRDH implementation support to TNeGA
- SRDH Maintenance at SDC
- Tender processing
- Vendor management support

National Informatics Centre (NIC)

- Supporting State Nodal Agency technically
- Supporting the Departments in establishing interface to SRDH with their Applications/databases
- Interfacing support with AADHAAR and NPR and other Government agencies on need basis

T.K.RAMACHANDRAN,
SECRETARY TO GOVERNMENT

//True Copy//

Section Officer.
29/11/13

Tamil Nadu e-Governance Agency (TNeGA) under the Information Technology Department

Sub-AUA: Sub-Authentication User Agency consists of Government bodies, Undertakings and Autonomous bodies, or any other Government agencies who register with AUA for availing SRDH data and authentication services.

Guidelines for Sub-AUAs

1. Agency Registration

Any Government agency interested in becoming a Sub-AUA shall apply online (URL will be provided later) for registration. The SRDH application will have an online workflow based application form for engaging Sub-AUAs. The Sub-AUA registration can also be done offline through a hard copy of the Sub-AUA Application Form as provided in the Annexure E. The right to accept, reject, review or call for further information/clarification rests with the AUA and the decision of the AUA will be final in this regard.

2. SRDH Access

The SRDH data access is provided for the following purposes only:

- for Biometric Authentication of a Resident, especially for beneficiary verification
- for Verification / Validation of Demographic Information of Citizens
- for downloading Demographic Information of citizens for Aadhaar seeding purposes
- for downloading Biometric Information of citizens for any special purpose (for which the approval of the State Apex Committee is mandatory).

The AUA reserves the right to add, revise, suspend in whole, or in part any of the access rights to Sub-AUA at any time in its sole discretion, for any reason whatsoever.

SRDH data is the personal information of citizens and strict confidentiality is to be maintained as per the laws in force. Hence, the Sub-AUA shall ensure that all infrastructure such as Server, Databases, Network, etc., required for SRDH data access and storage shall be confined within the territory of India.

3. Outsourcing

In the event the Sub-AUA outsources part(s) of its operations to other entities, the Sub-AUA shall be responsible to AUA, for all data access requests by the

outsourced agency. The Sub-AUA shall intimate the complete details of the outsourced agency to AUA before providing access details to such agencies

4. Confidentiality, Data Protection, Security and Use of Information

Access of information from SRDH is provided solely for legitimate purpose(s) as mentioned in the approved application form. The Sub-AUA or any of its outsourced agencies shall access the SRDH for no other purposes than the purpose approved by AUA.

The Sub-AUA shall not in any manner whether directly or indirectly use the SRDH access for any anti-Government or discriminatory or related to money laundering or in contravention of any laws applicable in India.

The Sub-AUA (and its outsourced agencies) shall treat all information of the Citizens taken from SRDH as confidential. It shall not, at any time, divulge such data to any third party or to any person voluntarily, accidentally or by mistake.

The Sub-AUA shall ensure compliance with all applicable laws and regulations including but not limited to regulations on data protection under the Information Technology Act 2000 and subsequent amendments thereon, when accessing information for their purposes.

The Sub-AUA shall not store or preserve any data downloaded from SRDH in any form other than as prescribed by AUA from time to time. The Sub-AUA should ensure that the data received from SRDH are stored wherever necessary, with strong and standard encryption algorithms.

The Sub-AUA and its outsourced agencies are prohibited from storing the personal identification information of citizens (like biometric information) in any authentication device. Storage of such data in the database server or any other storage devices should be encrypted with strong and standard encryption algorithms. It must also be ensured that transmission of such data through electronic media/network is also carried out in similar encrypted format.

The Sub-AUA shall ensure all measures, including security safeguards, to ensure that the information of citizens taken from SRDH and in their possession or control is secured and protected against any loss or unauthorised access or use or unauthorised disclosure thereof.

AUA assumes no responsibility or liability for any action or inaction, use or misuse of the Confidential Information and other data in the control of the Sub-AUA. Any loss, damage, liability caused or suffered by the Sub-AUA or its outsourced agencies due to disclosure of information of confidential nature

shall be borne by Sub-AUA without transferring any liability or responsibility towards the AUA.

5. API for Secure Access

The Sub-AUA shall strictly conform to Security Standards and Requirements prescribed by UIDAI and Registrar General of India (RGI). The download of API and its implementation shall be provided only to the Sub-AUA based on the credentials provided. The Sub-AUA shall use the API to access the SRDH services without compromising or violating requirement specified by the AUA with regard to network specifications, security etc., from time to time. The Sub-AUA shall ensure fair usage of the API avoiding any kind of malpractice or misuse including (not limited to) reverse engineering, hacking, corrupting, redeveloping or disrupting its form or functionalities.

Any violation in this regard by any of the outsourced agencies of the Sub-AUA should immediately be informed to AUA.

6. Connectivity

No direct database level connection to SRDH will be provided to the Sub-AUAs. The Sub-AUA should access the services of SRDH only through secured network connections (SSL). Performance / Latency of SRDH data access will depend on the strength of connectivity and limitations imposed by the network and hence, the Sub-AUA shall ensure better connectivity for better performance.

7. Audit of Standards (QC)

The Sub-AUA shall comply with standards, directions, specifications, orders etc. with respect to network and other Information Technology infrastructure, processes, procedures, etc., issued by the Government of India, especially UIDAI, RGI and Department of Electronics & Information Technology (DeITY) for accessing SRDH data. This conformance shall be initially certified by a registered body (STQC or Cert-In empanelled agency) and open for periodic audits in future.

The biometric devices used for SRDH biometric authentication shall conform to the standards prescribed by UIDAI for Aadhaar authentication, as found at: http://stqc.gov.in/sites/upload_files/stqc/files/STOC%20UIDAI%20BDCS-03-08%20UIDAI%20Biometric%20Device%20Specifications%20Authentication_1.pdf

8. Training of Personnel

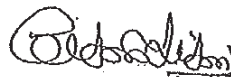

The Sub-AUA shall ensure that persons employed for providing / enabling SRDH data access, maintaining necessary systems, infrastructure, processes, etc. possess requisite qualifications for undertaking such works. The Sub-AUA shall also ensure that personnel are suitably and adequately trained to handle the devices used for SRDH purposes.

9. Periodic Audit

The Sub-AUA shall be responsible to AUA for all its SRDH data access related aspects, and in the event the Sub-AUA outsourcing part(s) of its operations to other entities, the ultimate responsibility for the results of SRDH data access related operations entirely lies with the Sub-AUA. The Sub-AUA shall ensure that the entity to which it has outsourced its operations is audited periodically by information systems auditor certified by a recognized body (STQC or Cert-In empanelled agency).
