Information Technology (e.Gov.I) Department

G.O.Ms.No.15

Dated : 06.12.2012

Read:

From the CEO, TNeGA, Chennai Letter No.1069/ TNeGA/
2012, dated 12.7.2012.

ORDER:

While moving the Demand No.31, relating to Information Technology for the year 2012-2013, the following announcement was made in the Tamil Nadu Legislative Assembly, among other things:-

“அரசு ஊழியர்களுக்கு கணினி தொடர்பான அடிப்படைப் பயிற்சி மற்றும் அலுவலக கணினிமயமாக்கல் குறித்த பயிற்சி அளிக்கப்படுகிறது. மாண்புமிகு தமிழக முதலமைச்சர் இதயதெய்வம் புரட்சித்தலைவி அம்மா அவர்களின் ஆணையின்படி, கணினிக்கல்வி தொடர்பான பாடத்திட்டங்கள் உருவாக்கப்பட்டு அவை தமிழ்நாடு தரவு மையத்தின் மூலம் இணையத்தில் வழங்கப்படும். இப்பாடங்களை அரசு ஊழியர்கள் படித்து அவர்களது கணினித் திறனை வளர்த்துக் கொள்ள இயலும்.”

2. In this regard, the Chief Executive Officer, Tamil Nadu e-Governance Agency was requested to send a proposal for implementation of the e-Learning Content for Government Employees and he has forwarded the proposal. The salient features of the proposal on “e-Learning Content” are:

The necessity of the project arises out of the following

- Multiple large scale e-Governance programs are being rolled out in the State and more training sessions need to be conducted in parallel.
- Employees participate in various training programs. Their learning becomes ineffective unless it is utilized in their day to day work. e-Learning makes this possible by making the training content available online which can be accessed anytime and any number of times.

- Hands-on-training is very critical for any software application training. The e-Learning system shall provide a Simulation of the actual application along with the Step by Step instructions to perform a particular activity. This can even be used by the user a quick reference on job.
- No centralized repository for the training manuals, presentations etc. e-Learning system will act as centralized repository of all the training content, including PowerPoint presentations, video content, help manuals and Quick reference guides.
- Non availability of a system to track the skill development activities taken up by the employees. e-Learning system also provides a centralized tracking system of the courses taken up by various users. This will help the Government/Departments to plan their Capacity Building initiatives.

Stakeholders

For the success of any project, it is critical to identify the key stakeholders and their roles and responsibilities. Key stakeholders for this process are listed below:

Stakeholders	Responsibilities
Information Technology Department / TNeGA	a) Owner and facilitator of the e-Learning System. b) Identify those training courses that can be delivered through e-Learning. c) Enroll users to appropriate training courses. d) Tracking completion of courses e) Collect feedback to improve the system. f) Handle administrative level issues of the e-Learning system.
Department	a) Drive the use of e-Learning system. b) Assist the IT Department / TNeGA to ensure that the users complete their training courses on time. c) Prepare quality content for e-Learning and create courses.
Users	a) End Users of the e-Learning system. b) Utilize the system effectively for learning. c) Participate in feedback processes and provide inputs to make the system more effective. d) Ensure timely completion of the training courses.
SDC & TNSWAN team	a) Hosting of Application and operations management. b) Network support in the SWAN.

Advantages

- a) The e-Learning system supports Text, audio and video content, thereby making the course more interesting and interactive.
- b) This system will also act as a repository for training materials and the users can access them regardless of time and place.
- c) This system provides the flexibility of attending the training courses at their convenience.
- d) Similar to a conventional training, the e-Learning system shall also have an assessment at the end of each training course. The participants will take up the assessment online and the results are recorded.
- e) With e-Learning, individualized Learning Maps can be created for each user according to their roles they play in the department.

Project Timeline and Cost

The project is expected to be implemented in a period of 6 months from the Planning phase to Implementation Phase.

The estimated cost for the implementation of this project is Rs.10.92 Lakhs approximately. However, the actual cost will be arrived through the tender. The tender cost will be met from the pilot e-District funds of Government of India. The Chief Executive Officer, Tamil Nadu e-Governance Agency, has informed that the funds for implementation of proposal for e-Learning Content would be made available from Department of Electronics and Information Technology (DeitY) funding under various schemes.

3. After careful examination, the Government, accord administrative approval to implement "e-Learning Content for Government Employees" Project at an estimated cost of Rs.10.92 Lakhs (Rupees Ten Lakhs and ninety two thousand only) by utilising the funds available from Department of Electronics and Information Technology (DeitY), Government of India funding under various schemes.
